Summary of Information

Site is a one-story, white structure with stucco-like walls with a sloping, evenly bumpy roof, deeply shaded by thick, overhanging vegetation. The general climate is warm, sunny and sticky, and there is lots of vegetation. Near the structure is a somewhat wide, but considerably longer flat open area ("like" a road) that is hard packed, reddish in color, and dusty; this open space is bordered by grass, shrubs, and dense trees or other vegetation. There are people here who are hot and smelly. One person especially seems to be in charge, though ~~not~~ fully in control. Though he has the air of authority, he is highly anxious under the surface. He causes the others here to do things that make them sweaty and tired, which they don't like to do, but know it's in their best interest to do.
